Dynacons listed in the Financial Times 1000 High Growth Companies Asia Pacific List

MUMBAI, India – February 22, 2018

We are happy to announce that Dynacons Systems & Solutions Ltd has been ranked in the FT1000 list of High Growth Companies Asia Pacific released by Financial Times in partnership with research firm, Statista.

The inaugural FT 1000 High-Growth Companies Asia-Pacific list considered companies based in 11 of the region's more developed markets: Australia, Hong Kong, India, Indonesia, Japan, Malaysia, New Zealand, the Philippines, Singapore, South Korea and Taiwan. This list has been drawn from far over 10 million active companies in eleven countries. According to Financial Times, the ranking is created through a complex procedure aided by thorough research, calculation, and evaluation of revenue data.

Dynacons occupies the 455th position alongside major technology players such as Sify, Mindtree, Tech Mahindra, Hexaware, Cyient and Sonata Software. While the research considered businesses in sectors ranging from healthcare to ecommerce, technology was the most represented sector.

Commenting on the development, Mr. Shirish M. Anjaria, Chairman and Managing Director of the Company said, "We are excited to be featured among the trend setters of the Asia Pacific region. We attribute this success to our technology expertise, global delivery capability and full services portfolio which enables us to deliver high quality, high impact solutions leveraging the latest technologies to customers across multiple regions and industry verticals. Our deep domain expertise in the industries we serve is central to our ability to understand our customers' challenges and design effective solutions to address them. "

About Dynacons

Dynacons Systems & Solutions Ltd. is an IT company with global perspectives with its headquarters at Mumbai and branches all over India.

Established in 1995, Dynacons undertakes all activities related to IT infrastructure including infrastructure design and consulting services, turnkey systems integration of large Network and Data Centre

infrastructures including supply of associated equipment and software; onsite and remote facilities management of multi- location infrastructure of domestic clients. The Company has built a strong customer base, variety of talent and a competent service delivery infrastructure.
