

Dynacons wins the prestigious **e-PASSPORT PROJECT** from (n)Code Solutions of GNFC.

Mumbai, India, March 29, 2023

We are happy to announce that **Dynacons Systems & Solutions Ltd** has won one of the prestigious contracts worth **Rs. 106 Crores** for Supply, Installation, commissioning and O&M of PKI Solutions, IT Infrastructure Components and Connectivity Services for e-PASSPORT PROJECT.

Security concerns, developing technologies and emerging standards have led governments worldwide to pursue the issuance of sophisticated machine-readable travel documents (MRTD) to their citizens. Commonly known as "ePassports," these documents contain a chip that stores information that can be verified against the data on the passport.

There are 41 security features of e-passport. Some of these features are Embosse Biographic image, Demographic information, Biometric information, iris scans and digital signature of the bearer

To issue and process a trusted ePassport requires multiple components including a method to secure the data on the chip that enables India and other governments to read the data, and a credential management system to manage the issuing and renewal of ePassports. Such infrastructure requirements are often called the passport-ecosystem.

To achieve this objective a centralised infrastructure will be offered to meet the current requirement and future scalability and expansion. At a high level, the Solution offered includes PKI Software Solution, IT Infrastructure solution including Servers, Storage, Firewall, HSM, Virtualization, Crypto e-Token, Antivirus, NMS / EMS, Database & windows Server Licenses, & Network Connectivity with remote locations.

Commenting on the development, Mr. Shirish M. Anjaria, Chairman cum Managing Director of the Company said, "Digitization has given rise to electronic versions of almost all KYC documents. An e-Passport is a chip-enabled passport with a biometric identification card strengthening the transparency and security of travel documents. This order is a testimony to the latest technology expertise and readiness of skill sets demonstrated by our team."

About GNFC

The Gujarat Narmada Valley Fertilizers & Chemicals Limited (GNFC), Promoted by Govt. of Gujarat, has strategically diversified since 1989 expanding its portfolio much beyond Fertilizers and Chemicals.

As part of a major initiative in the Internet security domain, its division (n)Code Solutions has set up a world class PKI facility to offer Digital Signature Certificate & range of PKI based solutions. (n)Code Solutions is a certifying authority issuing Electronic Signature Certificates (ESC), providing country wide support for ESC and electronic procurement activities for various states.

(n)Code Solutions offers Digital Certificates that can integrate with applications such as emails, workflow, enterprise wide applications, or secure VPNs.
